NGS Query Developer Kit (QDK)

*Advanced Reporting & Analytics
for IBM i Users*

INFORMATION WHERE IT COUNTS

The *NGS QDK* is an affordable reporting and analytics solution that can satisfy a broad range of business and technical professionals.

Small Business? The easy-to-learn and powerful *NGS QDK* may provide everything you need.

Larger Organization? The *NGS QDK* can help you move forward now while you build your case for future budget periods.
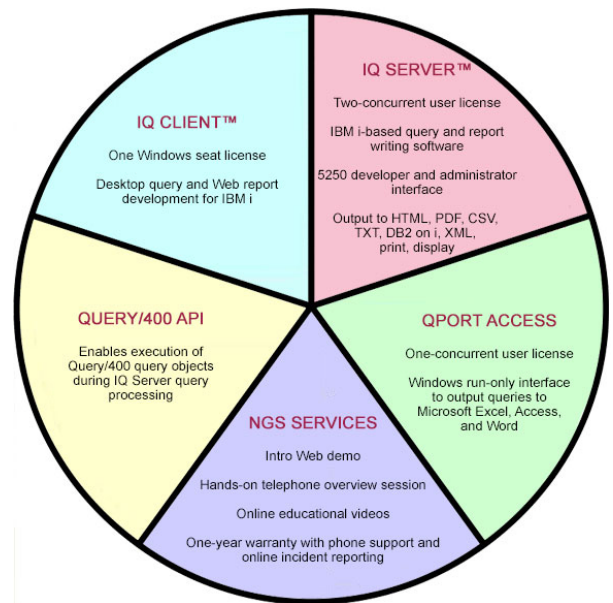

The *NGS QDK* is a modern replacement for IBM® Query/400 and the withdrawn and unsupported IBM DB2 Web Query. NGS is committed to ongoing enhancement, technical support, and education.

The *NGS QDK*'s point-and-click, drag-and-drop interface allows users to easily output files and reports to:

- Microsoft 365 (Excel, Access, Word)

- Adobe® PDF, Web browsers

- HTML, XML, TXT, CSV, Db2, print formats, and much more!

Additionally, the *NGS QDK* simplifies transferring files to Microsoft® Power BI; Excel worksheets, charts, and pivot tables; multidimensional models; Microsoft OneDrive for Business; and SharePoint.

The *NGS QDK* extends data access to web and mobile device users while complying with IBM i security and Db2 on i performance. Its built-in email and FTP features streamline report distribution.

NGS Query Developer Kit: $2,000

Don't let a tight budget stop you from moving your company ahead.

The *NGS QDK* includes:

- Two-concurrent user license of *IQ Server™* (Web and 5250 interfaces)

- One Windows seat license of the *IQ Client™* query and Web report development module

- One-concurrent user license of *Qport® Access* (Windows and Microsoft 365 integration module)

- One-hour online training session

- 90-minute telephone training session

- Access to more than 50 hours of on-demand educational videos

- One year of toll-free and online technical support

- One year of software maintenance
