NGS Query Developer Kit (QDK)

Now with Microsoft® 365 and Windows Integration Features

The *NGS QDK* can economically satisfy a wide range of query, reporting, and analytical requirements.

Small shop? You might be able to do everything you need with the *NGS QDK*.

Larger shop? Use the *NGS QDK* to show others what's possible, stimulate discussion, and build your case for future budget periods.

The *NGS QDK* affordably takes you far beyond IBM® Query/400 without a steep learning curve or complexity.

Enjoy point-click and drag-drop development with output to:

- Microsoft 365 (Excel, Access, Word)
- Adobe® PDF, popular Web browsers
- HTML, XML, TXT, CSV, Db2, print

Web integration, email and FTP features are built in to simplify report distribution and secure data access.

The *NGS QDK* also extends data access to Web and mobile device users without sacrificing IBM i or Db2 performance and security.

NGS Query Developer Kit: $1,850

Don't let a tight budget stop you from moving your company ahead.

The *NGS QDK* includes:

- Two-concurrent user license of *IQ Server* (Web and 5250 interfaces)
- One Windows seat license of the *IQ Client* query and Web report development module
- One-concurrent user license of Qport Access (Windows & Microsoft 365 integration module)
- One-hour online training session
- 90-minute telephone training session
- Access to more than 50 hours of on-demand educational videos
- One year of toll-free and online technical support
- One year of software maintenance

"I was looking for a product that was more flexible. In a one-man shop, you are multi-tasking all the time. NGS gave me immediate support when I needed it." IT Director, Mobile Paint

"We've created about 60 new reports with NGS-IQ - a real variety of stuff primarily for sales and accounting, but also for manufacturing and engineering." IT Director, Blonder-Tongue Laboratories
