

# *NGS-IQ*<sup>™</sup> Tutoring Sessions: Personal • Online • No Cost

INFORMATION WHERE IT COUNTS

Custom Business Analysis Tutoring: A NEW Hands-On Experience

With the *Qport SmartView* OLAP module, all types of NGS users can quickly analyze and visualize real-time operational data retrieved by an *NGS-IQ*<sup>m</sup> query into off-line, read-only multidimensional presentations.

The updated tutoring session now includes handson, step-by-step instructions to import your business data into NGS designed *SmartView* templates. Learning curves are significantly reduced, and you have meaningful results within minutes! Product capabilities and time-saving enhancements in the new *SmartView* release are covered in this class.

## Windows Query Development Tutoring

Learn basic query development to include recent enhancements using *IQ Client*, NGS' Windows query and Web reporting development module.

#### Web Reporting with *NGS-IQ*<sup>™</sup>

The built-in Web reporting functions of *NGS-IQ* enable authorized users to run queries from a browser on their favorite device and output to HTML, Adobe<sup>®</sup> PDF, and Microsoft<sup>®</sup> Excel.

Turn queries into professional looking Web reports with style sheets, charts, hyperlinks, and other design elements.

## Excel Tutoring

*Qport Access'* tight integration with Excel offers advanced features that simplify, while enhancing, report development for Excel users. See how to refresh previously created and formatted Excel sheets, ranges, charts, and pivot tables with new data and automate the entire process.
