

Revisiting Valuable Functions for *NGS-IQ* Developers and Analysts

Please join us for our next **NGS-IQ** Share & Learn Webinar. We will cover:

- how the previous record value function (PREV) can build a forecasting report
- how to use the Group By function to summarize rows of data
- when to use ***IQ Server's*** "Query to Run Next" feature vs. ***Qport Access'*** query linking feature to run multiple queries
- how to share and reuse SmartView charts
